Following window books from e-shopping

The image displays a screenshot of an e-commerce website's book store interface. On the left, a vertical list of books is shown, each with a cover image, title, author, and a 'Buy Now' button. The books listed are:

- Half Girlfriend (English) (Paperback)** by Chetan Bhagat
- CMAT Entrance Guide with Mock Test CD (English) (2nd Edition) (Paperback)** by Chetan Bhagat
- Revolution and Its Discontents (English) (Paperback)** by Chetan Bhagat
- See Goodness in Strives (English) (Paperback)** by Chetan Bhagat
- Soorya (English) (Paperback)** by Chetan Bhagat
- Soorya (English) (Paperback)** by Chetan Bhagat
- Soorya (English) (Paperback)** by Chetan Bhagat

On the right, a graphic features a stylized woman with yellow hair, wearing an orange jacket and a patterned dress, carrying two shopping bags (one blue, one red). Above her is a blue banner with the text 'Book Store'. At the bottom right of the graphic, the website address 'Shopforvow.com' is visible.

Following Privacy Policy Page

Future scopes :

- the project made here is just to ensure that this product could be valid in today real challenging world . Here all the facilities are made and test .
- Currently it is not visible on virtual world (internet) because of some limitations of project . In future it may be there.

conclusion

- Online shopping is the best way to purchase any item but be careful because there may be some fake products on different sites.
- Only purchase those items is which can be recognised easily that item is fake or not or choose according rating of buyers.
- But not to worry ,on my site you will get all items genuine and trusty , just check once here before buy anywhere .

Questions:

- Q1: discuss online shopping .
- Q2: give components the main window for online shopping .
- Q3: define feasibility for online shopping.
- Q4: give some items for online shopping in main window .
- Q5: there are some requirements for online shopping
Give some that .
